

QUESTIONS ARE WELCOME!

Frequently-Asked Questions (FAQs)

Do you provide housing? While NAC does not provide student housing, affordable options are located throughout neighborhoods near the school. Online resources such as [Craigslist](#), Zillow or Apartments.com can provide more information.

Do you provide financial aid? NAC does not provide financial aid. However, our tuition rates are some of the most reasonable in the Denver Metro area.

Do you have child care? Child care services are not provided but there are a number of options - and a range of costs - in the local area. The local school districts also offer Early Childhood Education courses for young learners.

What is the healthcare system like in America? Healthcare costs in the United States can be very expensive and we strongly suggest that students purchase a medical insurance plan in case of emergency. Your home country may offer insurance policies for international travel, or you can consider buying a short term plan online. Upon request, our administrative staff can provide an extensive list of low cost health and dental care clinics in the Denver area.

What nationalities are represented in the student body? More than 50 different countries are represented within NAC's student body. Some of the languages spoken by our students are Arabic, Portuguese, Spanish, Chinese, Russian, Korean, Turkish, and Vietnamese.

Does the school offer any student events outside of class time? Yes! In addition to our scheduled English classes, NAC offers a free conversation class on select afternoons during the week, class field trips led by instructors, an annual BBQ in a park, international food festivals and other activities such as a talent show and spelling bees.

What is your attendance policy? Consistent and on time classroom attendance is one of the biggest responsibilities you have as a student. NAC students are required to maintain an attendance rate of at least 80% each month. You can find specific details regarding the school's attendance policy.

Do you offer university application assistance? Yes! Specific requests for student recommendations, academic transcripts or application advice can be made with school administration. Students can find information about the partnerships NAC has with local universities.

Do you offer a certificate when I complete a class? We offer the following certificates:

- **Certificate of Attendance:** Students receive a Certificate of Attendance when they have successfully attended part of a level, but not all four (4) sessions.
- **Certificate of Level Completion:** Students receive a Certificate of Level Completion when they have successfully completed four (4) sessions in a level.
- **Certificate of Program Completion:** Students receive a Certificate of Program Completion when they successfully complete an eight-month program.

Revised: October 2018
